## **PALLADINE TECHNOLOGY UNVEILS A TV WITH HIGH RESOLUTION WUXGA PC DISPLAY, DUAL USB INPUT AND PIP FEATURING DOUBLE WINDOW DISPLAY.**

**SINGAPORE (30 September 2009)** – Palladine Technology Pte Ltd, a producer of Digital display TV, today announced the debut of the new Palladine MM-Series range of affordable Full HD TV with High resolution PC Display, Dual USB Input and PIP featuring double windows display.

- FULL HD 1080P

- 3 x HDMI

- Picture In Picture

- Fast Response Time

- 1920x 1080 PC Display

- 2 X USB Inputs

- Split Screen

- Dynamic Contrast

Integrated with 10 bit WUXGA FULL HD LCD Panel that give a color depth of 1.06 billion colors instead of the standard 8 bit which provide 16.7 million colors, the Palladine MM Series is not only a Full HD LCD TV but also a high resolution WUXGA PC Monitor and a media player that can playback full HD 1080p video format, high resolution photo and also audio via its 2 x USB 2.0 input.

Designed with the latest Video Scaling Chipset from the US, the Palladine MM Series is both a high definition television and function also as a high resolution WUXGA PC Monitor. Integrated with quality LCD Panel from Korea, it supports High Definition Video Format like Blu-Ray Disc up to 1080p via either the 3 HDMI or Component interface. Connect via the HDMI or VGA D-Sub Input, the Palladine MT-Series is also a high resolution PC monitor supporting WUXGA resolution up to 1920 x 1080 pixels.

By simply plugging a USB drive into either one of the 2 USB input provided, to playback High Definition video files up to 1080p, supporting multi video formats Mpeg 2, Mpeg 4, .mov files and etc. You can also playback high resolution photo up to 1920 x 1080 pixel and viola your Full HD TV is also a big digital photo frame. It is also capable to playback audio files for music lover.

The featured PIP solution allows you to split the screen into 2 windows to playback 2 different video sources, you can now watch your favorites TV and play with your computer on the same TV screen at he same time.

Available in diagonal display sizes of 47", 42", 37", 32" and 26", Palladine MM-Series comes with a host of features like integrated with a pair of 10 watt PMPO speakers, Teletext, Picture and Sound Mode. It even comes with a coaxial high definition audio output.

Elegantly designed in a black-coated casing to suit most designer interior decoration, Palladine MM-Series are schedule for mass delivery in November 2009.

It is also available with HD Ready 1080P EPT-MK version, in 32" and 26" display sizes.

Attached herewith are the general technical specifications.
