PALLADINE TECHNOLOGY UNVEILS A TV WITH HIGH RESOLUTION WUXGA PC DISPLAY AND DIGITAL LAN NETWORK READY

SINGAPORE (30 September 2009) – Palladine Technology Pte Ltd, a producer of Digital display TV, today announced the debut of the new Palladine MT-Series range of multimedia Full HD TV supporting high definition broadcasting with built in Digital LAN Network Ready and USB Input to playback high definition and resolution multimedia files.

Integrated with 10 bit WUXGA FULL HD LCD Panel that give a color depth of 1.06 billion colors instead of the standard 8 bit which provide 16.7 million colors, the Palladine MT Series is not only a High Definition Television that integrated a Digital High Definition TV tuner. It is also a media player that can playback full HD 1080p video format, high resolution photo and also audio via the USB 2.0 input.

With Digital LAN (DLAN) Network Ready the Palladine MT-series cans remotely playback audio, video and photo files store in Media Server or Computer (Desktop PC/Notebook) via RJ45 interface. With your Media Server or computer operating as a storage hub for your Video, Photo and Audio files, it allows playback of different or same files with several Palladine MT-Series TV at the same time.

Designed with the latest Video Scaling Chipset from the US and the latest HD TV Tuner, the Palladine MT Series is both a high definition television and function also as a high resolution WUXGA PC Monitor. Integrated with a H.264 TV Tuner, it can receive TV broadcasting in high definition MPEG4 format up to HD 1080p and is downward compatible with DVB-T and analog TV broadcasting. Of course it also can support High Definition Video Format like Blu-Ray Disc up to 1080p via either the 3 HDMI or Component interface. Connect via the HDMI or VGA D-Sub Input, the Palladine MT-Series is also a high resolution PC monitor supporting resolution up to 1920 x 1080 pixels.

Available in diagonal display sizes of 47", 42", 37" and 32", Palladine MT-Series comes with a host of features like integrated with a pair of 10 watt PMPO speakers, Teletext, PIP, Picture and Sound Mode. It even comes with a coaxial high definition audio output.

Elegantly designed in a black-coated casing to suit most designer interior decoration, Palladine MT-Series are schedule for mass delivery in November 2009.

Attached herewith are the general technical specifications.
